Study Abroad Coordinator

Peer-Olaf Siebers

- University offers different opportunities to go abroad for studies
 - Degree plans with study abroad component (in Y3)
 - MSci Computer Science including International Year
 - MSci Computer Science with Artificial Intelligence including International Year
 - Study abroad for a semester/year (inter-campus exchange only) in Y2
 - All degree plans except the above ones (including Year in Industry)
 - Summer internships (any year; no limit)
 - All degree plans
 - International volunteering (any year; no limit)
 - Virtual intercultural program (any year; no limit)
 - If you are on a "Year in Industry" degree plan you could do that year abroad

- School managed opportunities

	Abroad Year	International			Intercampus-Ningbo			Intercampus-Malaysia		
		Autumn	Spring	Full	Autumn	Spring	Full	Autumn	Spring	Full
BSc CompSci	2				x	x	x			x
BSc CompSci with Year in Industry	2				x	x	x			x
MSci CompSci	2				x	x	x			x
MSci CompSci with International Year	3			x			x			x
The same options are available for CompSci and AI degree plans										

- Other opportunities

- International summer schools
 - <https://www.nottingham.ac.uk/currentstudents/study-abroad/international-summer-schools/international-summer-schools.aspx>
- Work experience outside the UK (internship)
 - <https://www.nottingham.ac.uk/careers/students/work-experience/outside-the-uk.aspx>

International and inter campus locations

Options by location

- International and inter campus locations

International Options 2025/2026	City	Country
Australian National University	Canberra	Australia
Monash University	Melbourne	Australia
University of Toronto, Scarborough	Toronto	Canada
City University of Hong Kong	Hong Kong	China
The University of Hong Kong	Hong Kong	China
University College Dublin	Dublin	Republic of Ireland
The University of Auckland	Auckland	New Zealand
McGill University	Montreal	Canada
Inter Campus Options	City	Country
University of Nottingham - Ningbo	Ningbo	China
University of Nottingham - Malaysia	Semenyih	Malaysia

- Please note that opportunities change frequently
 - Please email me to confirm whether a specific option is currently available

The screenshot shows a web browser window displaying the University of Nottingham Study Abroad website. The browser's address bar shows the URL: www.nottingham.ac.uk/currentstudents/study-abroad/index.aspx. The website header features the University of Nottingham logo and navigation links for UK, China, and Malaysia. Below the header is a search bar and a navigation menu with links for Study, About, Research, Business, News, Visit, and A-Z. The main content area is titled "Study abroad" and includes a sidebar with links to News, International students, Mature students, Library and IT essentials, Students' Union, Student opportunities, and Study abroad. The Study abroad section is highlighted. The main content area features a large image of a coastal town with a bay and mountains in the background, titled "Global opportunities". Below the image, there is a paragraph stating: "The majority of University of Nottingham students have the opportunity to have an international experience during their university career." This is followed by another paragraph: "Nottingham has 200 university partners in 40 different countries spanning six different continents across four different exchange programmes. These include Inter-campus exchange, International exchange and International summer schools." Below this, there is a paragraph: "Applications usually take place during the autumn semester of the academic year before you would go on exchange. To see what options are available for your specific subject area go to the [Global opportunities by school](#) webpages." At the bottom of the page, there are three buttons: "Join us on Instagram", "Global opportunities blog", and "Global opportunities events".

<https://moodle.nottingham.ac.uk/course/section.php?id=1397645>

The screenshot shows a web browser window displaying the Moodle page for 'Degrees - Study Abroad' at the University of Nottingham. The browser's address bar shows the URL: <https://moodle.nottingham.ac.uk/course/section.php?id=1397645>. The page header includes the University of Nottingham logo and navigation links: Home, Dashboard, My Modules, and More. A user profile is visible in the top right corner, labeled 'Student'. The main content area is titled 'Degrees - Study Abroad' and contains the following text:

If you are interested in studying overseas, do have a look at the Computer Science Study Abroad fact sheet [\[link\]](#) (please select the Computer Science drop down). In brief, there are two ways Computer Science students can study abroad:

- All undergraduates can take a semester (and also a full year for inter-campus exchange) abroad in the second year. The application deadline is usually sometime in **January**.
- Students who are enrolled on the specific International Study Year MSci course will spend a year abroad, this will count as your third year of study. You can transfer on and off this course throughout your first two years. The application deadlines are usually sometime in **February**.

More details can be found in the [CompSci Study Abroad Introduction Lecture recording](#) (Autumn 2024; only covers IntY), [slides](#) (Autumn 2024; covers MSci IntY + MSci/BSc variants), and the [Study Abroad Website](#).

A summary of [rules and additional information for each of the potential host universities](#) participating in the international exchange programme can be found [here](#).

If you need further academic guidance (e.g. module choices), you can contact Peer-Olaf Siebers by email: peer-olaf.siebers@nottingham.ac.uk.

If you need further administrative guidance (e.g. finance), you can contact the Study Abroad team by email: studyabroad@nottingham.ac.uk.

If you want to transfer to another course/plan, you find guidance and the required form in the Quality Manual's [Changes of Taught Courses](#) section.

The left sidebar contains a list of links under the 'Degrees - Study Abroad' section:

- Eligibility
 - MSci Computer Science including International Year programs
 - Apply in **second year** to study abroad in the **third year**
 - To be considered, students must have a minimum average of **60%** across their first year (some universities require **65%**) and the first semester of their second year.
 - Successful applicants will receive a **preliminary offer**, conditional on their final average across first and second year being **60%** (some universities require **65%**) or higher.

- Eligibility (international year degree plan)
 - MSci Computer Science including International Year programs
 - Apply in their **second year** to study abroad in the **third year**.
 - To be considered, students must have a minimum average of **55%** across their first year and the first semester of their second year.
 - Successful applicants will receive a **preliminary offer**, conditional on their final average across first and second year being **55%** or higher.

- Eligibility (all other courses)
 - All other courses
 - Apply in their **first year** to study abroad in the **second year**.
 - Students can choose to study for a single semester or a full year at our Ningbo campus, or for a full year at our Malaysia campus.
 - To be considered, students must have a minimum average of **55%** across the first semester of their first year.
 - Successful applicants will receive a **preliminary offer**, conditional on their final average across the first year being **55%** or higher.

- Summer Schools
 - Undergraduate University of Nottingham students can apply for an international summer school to study taught courses offered by one of our partner universities.
 - International summer schools usually range from one to six weeks in duration. As these programmes are offered during holiday periods, credits are not transferred back to Nottingham and in most cases, you are free to study whatever is of interest to you.
 - Available programmes vary from year to year; however, we traditionally offer a range of summer schools across East and Southeast Asia, Europe and Latin America.
 - <https://www.nottingham.ac.uk/currentstudents/study-abroad/international-summer-schools/international-summer-schools.aspx>
 - Questions: studyabroad@nottingham.ac.uk

- International volunteering
 - Think Pacific: Think Pacific offers 4-week volunteering and internship expeditions in Fiji, South Pacific and Bali, Indonesia. The University of Nottingham has a limited amount of Turing funding to support students who meet Turing's widening access criteria, for further information about the opportunities available for summer 2025, please view the project profiles and Turing funding information below for further information.

Int'Y Welcome

Specific Information about Host Universities

<https://www.nottingham.ac.uk/currentstudents/study-abroad/international-exchange/index.aspx>

International exchange is a non-compulsory, competitive programme with partners across four continents which include some of the best universities in the world. Students taking part in this exchange will experience a different teaching and learning environment and have the opportunity to take modules that might not be available at Nottingham or in the UK at all. This means you can choose to give your degree a regional focus by choosing modules that concentrate on the local area or undertaking fieldwork at unique sites in the local area, like the Great Barrier Reef in Australia.

Approximately 60% of the students that apply are allocated a place.

The opportunities listed here are correct as at the time of publishing and for the application year 2025/2026. Please be aware that study abroad options may change at any time for a number of reasons, including curriculum developments, changes to arrangements with partner universities, travel restrictions or other circumstances outside of the university's control. Every effort will be made to update this information as quickly as possible should a change occur. Please note that, in order to be accepted on to a study abroad programme, you have to achieve the relevant academic requirements as set by the university AND meet the selection criteria of both the university and the partner institution (though the partner institution is under no obligation to accept you).

Where can I study abroad?

We have international exchange partner universities in the following regions, to check which of these partners are available to apply to for your degree please look at the Global opportunities by school pages.

Americas	Asia	Australasia	Europe
International exchange opportunities in Canada and USA	International exchange opportunities in China, Hong Kong, Japan, Singapore and	International exchange opportunities in Australia and New Zealand	International exchange opportunities in Czechia, Denmark, Finland, France,
